Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/583,303	Applicant(s) RITTER ET AL.	
	Examiner Stephanie Jennings	Art Unit 3725	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-6 and 9 have been considered but are moot in view of the new ground(s) of rejection.
2. Applicant's arguments, see page 10, filed April 30, 2009, with respect to claims 7 and 8 have been fully considered and are persuasive. The objections of October 28, 2008 have been withdrawn.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Regarding claim 2, the phrase "for example" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Terminal Disclaimer

6. The terminal disclaimer filed on April 30, 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of December 18, 2003 has been reviewed and is NOT accepted.

Art Unit: 3725

7. An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c).

8. It would be acceptable for a person, other than a recognized officer, to sign a terminal disclaimer, provided the record for the application includes a statement that the person is empowered to sign terminal disclaimers and/or act on behalf of the organization.

Accordingly, a new terminal disclaimer which includes the above empowerment statement will be considered to be signed by an appropriate official of the assignee. A separately filed paper referencing the previously filed terminal disclaimer and containing a proper empowerment statement would also be acceptable.

Specification

9. Amendments to the specification have been reviewed and are accepted as being in compliance.

Claim Rejections - 35 USC § 103

10. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

11. Claims 1,3-6 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bode et al. US Patent No. 5,964,116 in view of Verbickas US Patent No. 6,220,071 and in further view of Kajiwara et al. US Patent No. 5,174,144. Bode

Art Unit: 3725

discloses a method for operating the rolling stands of a cold rolling mill with a pair of work rolls (13a, 13b), a pair of intermediate rolls (12a, 12b), a pair of back-up rolls (11a, 11b) (column 3, lines 41-61), the use of CVC technology (column 1, lines 55-63) and a strip (24) (column 4, lines 31-44). Bode does not disclose axial shifting devices.

Verbickas teaches axial shifting and strip-edge oriented shifting in column 3, line 66-column 4, line 9. It would have been obvious to one skilled in the art to provide Bode's device with the shifting of Verbickas to relieve stress on the strip edges. Verbickas in view of Bode does not disclose the use of pair-cross technology. Kajiwara teaches a four-high rolling mill with the use of pair-cross technology in column 2, lines 38-49. It would have been obvious to one skilled in the art to provide Verbickas in view of Bode's device with the pair-cross technology of Kajiwara so that the profile of the amount of a vertical roll gap between the work rolls can be changed so as to control the plate crown.

Allowable Subject Matter

12. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and overcoming the 35 USC 112, 2nd paragraph rejection. The prior art of record does not disclose work rolls or intermediate rolls that are provided with a one sided setback.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephanie Jennings whose telephone number is (571) 270-7392. The examiner can normally be reached on Monday-Thursday, 7 am - 5:30 pm EST.
